A basic 'pound shop' one would do, but for peace of mind, a scientific calculator (just to help with exponents) makes sense. Advanced / Full. A scientific calculator is a must. For the exam, you're given a one-page list of formulas (so you don't have to remember them all), and you will be given some formula questions.

~~Calculators for Amateur Radio Exams | Ham Train~~

The Advanced licence requires being found competent by way of a 50 question multiple choice written theory assessment and a multiple choice written regulations assessment. If you have not already done a practical assessment under either a Foundation or Standard licence or have the Standard Licence Regulations Exam, you will need to do them too.

~~Advanced licence | Amateur Radio Victoria~~

The Foundation exam is very straightforward and consists of 26 multiple choice questions which you have 60 minutes to answer. Usually the exam may be taken online or on paper at an RSGB registered venue, but during the current situation with COVID-19 you can only take your exam online with a remote invigilator.
