Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

Despite the efforts of both the U.S. Department of Defense and the Veterans Health Administration to enhance mental health services, many service members are not regularly seeking needed care when they have mental health problems. Without appropriate treatment, these mental health problems can have wide-ranging and negative impacts on the quality of life and the social, emotional, and cognitive functioning of affected service members. The services have been actively engaged in developing policies, programs, and campaigns designed to reduce stigma and increase service members' help-seeking behavior. However, there has been no comprehensive assessment of these efforts' effectiveness and the extent to which they align with service members' needs or evidence-based practices. The goal of this research was to assess DoD's approach to stigma reduction, how well it is working and how it might be improved. To address these questions, RAND researchers used five complementary methods: (1) literature review, (2) a microsimulation modeling of costs, (3) interviews with program staff, (4) prospective policy analysis, and (5) an expert panel. The priorities outlined in this report identify ways in which program and policy development and research and evaluation can improve understanding of how best to efficiently and effectively provide needed treatment to service members with mental illness.

This pathbreaking study examines the radical Left in Puerto Rico from the final years of Spanish colonial rule into the 1920s. Positioning Puerto Rico within the context of a regional anarchist network that stretched from Puerto Rico and Cuba to Tampa, Florida, and New York City, Kirwin R. Shaffer illustrates how anarchists linked their struggle to the broader international anarchist struggles against religion, governments, and industrial capitalism. Their groups, speeches, and press accounts--as well as the newspapers that they published--were central in helping to develop an anarchist vision for Puerto Ricans at a time when the island was a political no-man's-land, neither an official U.S. colony or state nor an independent country. Exploring the rise of artisan and worker-based centers to develop class consciousness, Shaffer follows the island's anarchists as they cautiously joined the AFL-linked Federación Libre de Trabajadores, the largest labor organization in Puerto Rico. Critiquing the union from within, anarchists worked with reformers while continuing to pursue a more radical agenda achieved by direct action rather than parliamentary politics. Shaffer also traces anarchists' alliances with freethinkers seeking to reform education, progressive factions engaged in attacking the Church and organized religion, and the emerging Socialist movement on the island in the 1910s. The most successful anarchist organization to emerge in Puerto Rico, the Bayamón bloc founded *El Comunista*, the longest-running, most financially successful anarchist newspaper in the island's history. Stridently attacking U.S. militarism and interventionism in the Caribbean Basin, the newspaper found growing distribution throughout and financial backing from Spanish-speaking anarchist groups in the United States. Shaffer demonstrates how the U.S. government targeted the Bayamón anarchists during the Red Scare and forced the closure of their newspaper in 1921, effectively unraveling the anarchist movement on the island.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development. Freedom House is a nonprofit, nonpartisan organization that supports democratic change, monitors freedom, and advocates for democracy and human rights.

A dramatic new history of Cesar Chavez and the rise and fall of the United Farm Workers. In its heyday, the United Farm Workers was an embodiment of its slogan “ Yes, we can ” —in the form “ ¡Sí, Se Puede! ” —winning many labor victories, securing collective bargaining rights for farm workers, and becoming a major voice for the Latino community. Today, it is a mere shadow of its former self. *Trampling Out the Vintage* is the authoritative and award-winning account of the rise and fall of the United Farm Workers and its most famous and controversial leader, Cesar Chavez. Based interviews conducted over many years—with farm workers, organizers, and the opponents and friends of the UFW—the book tells a story of collective action and empowerment rich in evocative detail and stirring human interest. Beginning with the influence of the ideas of Saul Alinsky and Catholic Social Action at the union ’ s founding, through the UFW ’ s thrilling triumphs in the California fields, the drama concludes with the debilitating internal struggles that effectively crippled the union. A vivid rendering of farm work and the world of the farm worker, *Trampling Out the Vintage* is a dramatic reappraisal of the political trajectory of Cesar Chavez and the United Farm Workers and an essential re-evaluation of their most tumultuous years.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.
