Through its lifespan, it was available with a Bedford 500 turbo engine also known as the 8.2 Blue, a Detroit Diesel two-stroke V6 and V8 or a Cummins L10, coupled to either a Fuller or Spicer transmission, and a SOMA rear axle (dropped after the 1982 facelift). The Detroit engine was not a successful choice in the UK. Because of its high-revving characteristics, it proved unpopular with drivers, who were used to slow revving, long stroke, UK diesels.

The Bedford YRT became the YMT when the 500 engine was introduced which became the YNT when the turbocharged option was brought in. The engine is available in a variety of ratings with the low boost turbo engine being introduced as a long-term replacement for the naturally aspirated engine to meet the noise regulations.

The Bedford TM 4-4 and TM 6-6 trucks are basically similar, the TM 4-4 being a 4x4, 8 tone vehicle and the TM 6-6 being a 6x6, 14 tone design (maximum load 16 tons). They share many components in common, such as the utilitarian forward control cab and engine, while many design details, such as the cargo area loading heights, are identical on both vehicles.
