A frequent problem area for fiction writers is characterization. If writers jump headlong into a story with only a fuzzy notion about the people who are in it, the result is a collection of characters who are clichéd, stereotypical and not very interesting. Creating Characters is an easy to use reference work that looks at character development from many different angles. The book does not tell writers how to write. Instead, it generates a thought process by asking crucial questions about characters' internal and external traits, wants, needs, likes, dislikes, fears, beliefs, strengths, weaknesses, habits and backgrounds. Following these questions, the writer will find an ever deeper and wider array of options. Thus, Creating Characters helps writers delve as deeply into a character's psychology as they want. All characters, and the stories they people, can be made richer and more compelling.

You've researched your character extensively, tailored her to your audience, sketched hundreds of versions, and now you lean back content as you gaze at your final character model sheet. But now what? Whether you want to use her in an animated film, television show, video game, web comic, or children's book, you're going to have to make her perform. How a character looks and is costumed starts to tell her story, but her body language reveals even more. Character Mentor shows you how to pose your character, create emotion through facial expressions, and stage your character to create drama. Author Tom Bancroft addresses each topic with clear, concise prose, and then shows you what he really means through commenting on and redrawing artwork from a variety of student "apprentices." His assignments allow you to join in and bring your drawing to the next level with concrete techniques, as well as more theoretical analysis. Character Mentor is an apprenticeship in a book. Professional artists from a variety of media offer their experience through additional commentary. These include Marcus Hamilton (Dennis the Menace), Terry Dodson (X-Men), Bobby Rubio (Pixar), Sean "Cheeks" Galloway (Spiderman animated), and more. With a foreword by comicbook artist Adam Hughes, who has produced work for DC, Marvel Comics, Lucasfilm, Warner Bros. Pictures, and other companies.

Theirs is a makeshift family, until it is shattered by an incident of violence that sets fire to the rest of their lives. Divisadero takes us from San Francisco to the raucous backrooms of Nevada's casinos and eventually to the landscape of southern France. As the narrative moves back and forth through time and place, we find each of the characters trying to find some foothold in a present shadowed by the past.
