Gain a deeper understanding of the requirements and guidance in AT-C section 320 for performing SOC 1 engagements. Obtain guidance from top CPAs on how to implement AT-C section 320 and address common and practice issues. Provide best in class services related to planning, performing, and reporting on a SOC 1 engagement. Successfully implement changes in AT-C section 320 arising from the issuance of SSAE 18, which is effective for reports dated on or after May 1, 2017. Determine how to describe the matter giving rise to a modified opinion by providing over 20 illustrative paragraphs for different situations. Understand the kinds of information auditors of the financial statements of user entities need from a service auditor's report. Implement the requirement in SSAE No. 18 to obtain a written assertion from management of the service organization. Organize and draft relevant sections of a type 2 report by providing complete illustrative type 2 reports that include the service auditor's report, management's assertion, the description of the service organization's system, and the service auditor's description of tests of controls and results. Develop management representation letters for SOC 1 engagements.

This handbook serves as a guide to deploying battery energy storage technologies, specifically for distributed energy resources and flexibility resources. Battery energy storage technology is the most promising, rapidly developed technology as it provides higher efficiency and ease of control. With energy transition through decarbonization and decentralization, energy storage plays a significant role to enhance grid efficiency by alleviating volatility from demand and supply. Energy storage also contributes to the grid integration of renewable energy and
