To say that there is a lot of confusion about what the G-spot is, how it works and how it can be stimulated to produce powerful orgasms, would be a huge understatement. Many women have trouble finding their G-spot. Some women even doubt its existence. However, many women will tell you that they've found theirs, achieved orgasm during sex, and do so regularly. In the end, we're all, at a very minimum, curious about the G-spot and how it fits into our sex lives. Why all the confusion? Simply put, it comes from a lack of information, frank discussion and open and honest communication. This book aims to clear all that up. In a common sense approach that includes anatomy, developmental biology, homespun wisdom, deductive reasoning and personal experience, author T.K. Hereford will help you to understand the secret connections between the G-spot, the clitoris and a woman's orgasm. This book will offer any reader, male or female, deeper insight into a woman's body and how women orgasm. This book also goes into detail about how you and your partner can communicate and potentially achieve powerful orgasms during intercourse in your own bedroom.

Discusses our changing understanding of human sexuality, explains the nature and function of the Grafenberg spot, and suggests how women can improve their sexual relationships. Reprint. 30,000 first printing.
