Brevard Childs here turns his sharp scholarly eye to the works of the apostle Paul and makes an unusual argument: the New Testament was canonically shaped, its formation a hermeneutical exercise in which its anonymous apostles and postapostolic editors collected, preserved, and theologically shaped the material in order for the evangelical traditions to serve successive generations of Christians. Childs contends that within the New Testament the Pauline corpus stands as a unit bookended by Romans and the Pastoral Epistles. He assigns an introductory role to Romans, examining how it puts the contingencies of Paul's earlier letters into context without sacrificing their particularity. At the other end, the Pastoral Epistles serve as a concluding valorization of Paul as the church's doctrinal model. By considering Paul's works as a whole, Childs offers a way to gain a fuller understanding of the individual letters. - Publisher.

Guided reading is a staple of elementary literacy instruction, yet planning and conducting reading groups can be time consuming and challenging. This hands-on book presents an innovative approach to guided reading that is manageable even for teachers who are new to small-group, differentiated reading instruction. Numerous classroom examples illustrate how to organize groups and select suitably challenging materials, structure group sessions, provide scaffolding and cues while listening to students read, and balance small-group with whole-class instruction. Special features include scheduling aids and lists of common cues for beginning and older readers, as well as suggestions for further reading at the end of each chapter.

Lesson planning in line with the new Primary National Curriculum! Why do we teach children to read? It is not merely to decode the words. We teach them to derive meaning from the text, to comprehend it. To not just read the lines, but to read between the lines and even read beyond the lines. So how can you make teaching comprehension in primary schools effective and engaging? How are you ensuring that children are finding meaning in what they read and how do we support more able readers to learn more? What does a good 'reading' lesson look like? This book demonstrates the effective teaching of reading through exemplar lessons. It discusses what makes them good lesson plans and how they can be adapted to suit different classes and different schools. In particular, this book helps you to meet the needs of more able readers particularly in years 5 and 6, outlining ways to challenge more able pupils to support them with the level 6 tests in Year 6. It helps you to cultivate your subject knowledge and invigorate your classroom teaching through focusing on what children need to learn and how to teach it.
