This text has been written for the new and experienced OneWorld professionals who need to use and get the most from the Object Management Workbench (OMW). It provides the fundamentals and details behind the business and technical information about OMW, alongside practical advice and special sections containing proven tips and recommendations for successful usage of OMW.

J.D. Edwards Software holds 3rd place in the Enterprise Software market, and is expected to move up in rank over in the next few years. Written by J.D. Edwards insiders and OneWorld professionals making this book unbeatable in terms of coverage and authoritative information.

Delivers sophisticated technical knowledge necessary for third party and customized application development and deployment within a more flexible architecture. Includes reusable code and a standard preconfiguration which can be adapted to the specific business needs of the company in which it is being installed. Special "Developer's Corner" sections provide real-world/practical development advice for creating great software in the most efficient way.

Proven strategies for companies seeking to accelerate an ERP implementation Almost all large and midsize corporations worldwide will be involved in implementing enterprise resource planning and/or e-business applications over the next two to three years. This is the only book that discusses how to implement a rapid ERP system and shows how e-business is impacted by the implementation of an ERP system. This book also provides valuable tried and true methods of keeping the project under or within budget. A quality ERP transaction foundation is a prerequisite for taking advantage of many of the new e-business opportunities that executives have placed high on their list of priorities. This valuable guide examines the strengths and weaknesses of ERP and shows when rapid implementation is not appropriate. The book also provides outsourcing alternatives and the use of application service alternatives, and shows how e-business is impacted by the implementation of an ERP system. Murrell G. Shields (McLean, VA) is the Director of Management Solutions and Services and National Leader of Technology and Infrastructure Services at Deloitte & Touche.
