~~Methods of Measurements – BrainKart~~

There are two methods of measurement:

1) direct comparison with the standard, and 2) indirect comparison with the standard. Both the methods are discussed below: Direct Comparison with the Standard. In the direct comparison method of measurement, we compare the

# Get Free Methods And Measurements

quantity directly with the primary or secondary standard.

~~Methods of Measurements – Bright Hub Engineering~~

The different methods of measurement are explained below in details. Direct Method of Measurement – In this method of

# Get Free Methods And Measurements

measurement, the unknown quantity is directly compared with the standard quantity. The result of the quantity is expressed in number. It is the most common method of measuring the physical quantities like length, temperature, pressure, etc.
