Perkins Marine Engines for sale UK, used Perkins Marine ...

Marine engines are calibrated for a specific type of workload that moves boats at velocities compatible with aquatic vessels and marine law. These engines are also stored where their weight can be managed and where crew members can easily work on them. The size of the boat will dictate how much power it needs and how much weight it can carry. Perkins engines are adaptable to wet conditions also. Diesel will continue working without being flooded by the presence of water.

Marine Systems / Perkins - Perkins Engines

Developed from our 1100 Series platform, the engines for marine pleasure applications are compact yet punch above their weight in terms of power, giving boat designers and fitters flexibility when it comes to new boat design or re-power installations. The 6.6 litre M300C engine.

Propulsion for pleasure craft / Perkins

Over the years Perkins has produced hundreds of different engines and each can have many different variants. So how do you know the exact specification of your engine? All the information you need about your engine is included in the serial number on your engine plate, which you can use to find the parts to fit on your engine.

Identify Your Engine / Perkins

The common rail fuel system in a diesel engine is made up of a high-pressure fuel rail feeding a set of injectors powered by a fuel injection pump. Older engines use unit injection systems of rotary or inline pumps. Perkins fuel systems are carefully designed and tested to deliver the required power and the best fuel consumption.
