impact; and, after the fact, we concoct an explanation that makes it appear less random, and more predictable, than it was. The astonishing success of Google was a black swan; so was 9/11. For Nassim Nicholas Taleb, black swans underlie almost everything about our world, from the rise of religions to events in our own personal lives. Why do we not acknowledge the phenomenon of black swans until after they occur? Part of the answer, according to Taleb, is that humans are hardwired to learn specifics when they should be focused on generalities. We concentrate on things we already know and time and time again fail to take into consideration what we don't know. We are, therefore, unable to truly estimate opportunities, too vulnerable to the impulse to simplify, narrate, and categorize, and not open enough to rewarding those who can imagine the "impossible." For years, Taleb has studied how we fool ourselves into thinking we know more than we actually do. We restrict our thinking to the irrelevant and inconsequential, while large events continue to surprise us and shape our world. In this revelatory book, Taleb will change the way you look at the world, and this second edition features a new philosophical and empirical essay, "On Robustness and Fragility," which offers tools to navigate and exploit a Black Swan world. Taleb is a vastly entertaining writer, with wit, irreverence, and unusual stories to tell. He has a polymathic command of subjects ranging from cognitive science to business to probability theory. Elegant, startling, and universal in its applications, *The Black Swan* is a landmark book—itsself a black swan.

uncertainty, probability, opacity, human error, risk, disorder, and decision-making in a world we don't understand, in nonoverlapping and standalone books. All four volumes—Antifragile, The Black Swan, Fooled by Randomness, and the expanded edition of The Bed of Procrustes, updated with more than 50 percent new material—are now together in one ebook bundle. ANTIFRAGILE “Startling . . . richly crammed with insights, stories, fine phrases and intriguing asides.” —The Wall Street Journal Just as human bones get stronger when subjected to stress and tension, many things in life benefit from disorder, volatility, and turmoil. What Taleb has identified and calls “antifragile” is that category of things that not only gain from chaos but need it in order to survive and flourish. The resilient resists shocks and stays the same; the antifragile gets better and better. What is crucial is that the antifragile loves errors, as it incurs small harm and large benefits from them. Spanning politics, urban planning, war, personal finance, economic systems, and medicine in an interdisciplinary and erudite style, Antifragile is a blueprint for living in a Black Swan world. THE BLACK SWAN “[A book] that altered modern thinking.” —The Times (London) A black swan is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random and more predictable. The astonishing success of Google was a black swan; so was 9/11. In this groundbreaking and prophetic book, Taleb shows that black swan events underlie almost everything about our world, from the rise of religions to events in our own personal lives, and yet we—especially the experts—are blind to them. RANDOMNESS “ [Fooled by Randomness] is to conventional Wall Street wisdom approximately what Martin Luther ’ s ninety-five theses were to the Catholic Church. ” —Malcolm Gladwell, *The New Yorker* Are we capable of distinguishing the fortunate charlatan from the genuine visionary? Must we always try to uncover nonexistent messages in random events? *Fooled by Randomness* is about luck: more precisely, about how we perceive luck in our personal and professional experiences. Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill—the markets—*Fooled by Randomness* is an irreverent, eye-opening, and endlessly entertaining exploration of one of the least understood forces in our lives.

THE BED OF PROCRUSTES “ Taleb ’ s crystalline nuggets of thought stand alone like esoteric poems. ” —*Financial Times* This collection of aphorisms and meditations expresses Taleb ’ s major ideas in ways you least expect. *The Bed of Procrustes* takes its title from Greek mythology: the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs. With a rare combination of pointed wit and potent wisdom, Taleb plows through human illusions, contrasting the classical views of courage, elegance, and erudition against the modern diseases of nerdiness, philistinism, and phoniness.

After his wife's untimely death, a powerful sorcerer dedicates his life to seeking revenge against all womankind. allies she needs to free herself and the other swan-maidens from their magical slavery? A monumental tale of loyalty and betrayal, of magic good and evil, of love both carnal and pure, and of the duality of human nature, *The Black Swan* is a rich tapestry which is sure to become an all-time masterpiece of fantasy.

Thomas Mann's bold and disturbing novella, written in 1952, is the feminine counterpart of his masterpiece *Death in Venice*. Written from the point of view of a woman in what we might now call mid-life crisis, *The Black Swan* evinces Mann's mastery of psychological analysis and his compelling interest in the intersection of the physical and the spiritual in human behavior. It is startlingly relevant to current discussions of the politics of the body, male inscriptions of the feminine, and discourse about and of women. The new introduction places this dramatic novella in the context of contemporary feminist and literary concerns, bringing it to the

The world's most famous choreographer becomes infatuated with a coltish young dancer who proves both siren and muse. A rising star plunges into an affair with a principal but finds that ecstasy on the stage can't be surpassed in the bed. A dying legend reflects on the evanescent beauty of a life of gesture, lost to everything but memory. Each bittersweet story plants the reader amid a cast of dancers and choreographers who struggle—valiantly, playfully, fiercely—to find in the rigorous discipline and animating beauty of ballet a counterbalance to the chaos of unscripted life. Many of the tales dare to imagine the inner lives of the century's titans—Balanchine, Fonteyn and Nureyev—which rival in emotional complexity and pathos the classic dramas they enacted onstage: *La Bayadere*, *Don Quixote*, *Swan Lake*. *White Swan*, *Black Swan* translates the pure and essential gestures of ballet into starkly elegant prose while showing the sweat and sex beneath the serene surface. Adrienne Sharp's debut is a bravura performance.

When Priscilla Harradine travels back to England on the *Centaur* she has no cause to expect her journey will be remotely eventful. But also on board is Charles de Bernis – a mysterious and intriguing buccaneer. Just as their friendship blossoms, a dark figure from de Bernis' past emerges to propel them into a thrilling and perilous adventure.
